At the three Health Sciences Libraries (Bio-Medical Library, Wangensteen Historical Library of Biology and Medicine, and the Veterinary Medical Library), subject specialists collaborate with affiliates in the Academic Health Center to teach classes and workshops, develop online learning objects and meet with students, faculty and staff in the following disciplines:

**Director**
Janice Jaguszewski  
j-jagu@umn.edu  
612-626-7039

**Associate Director for Education & Research Services**
Lisa McGuire  
lmcguire@umn.edu  
612-626-3643

**History of Medicine**
Lois Hendrickson  
l-hend@umn.edu  
612-626-6881

**Mortuary Science, Outreach**
Katherine Chew  
chewx002@umn.edu  
612-626-3017

**Medicine (and its specialties)**
Jonathan Koffel  
jbkoffel@umn.edu  
612-626-5454

**Public Health, Allied Health, Physical Therapy, Bioethics**
Del Reed  
reedx013@umn.edu  
612-624-3128

**Nursing**
Liz Fine Weinfurter  
eweinfur@umn.edu  
612-624-6492

**Dentistry & HSL Collections Coordinator**
Nicole Theis-Mahon  
theis025@umn.edu  
612-625-5410

**Biomedical/Research Services**
Caitlin Bakker  
cjbakker@umn.edu  
612-301-1353

**Pharmacy**
Frank Sayre  
fdsayre@umn.edu  
612-301-1240

**Veterinary Medicine**
André Nault  
naulta@umn.edu  
612-624-5376

The Right Information at the Right Time in the Right Place to Improve Health
Education

hsl.lib.umn.edu/biomed/services/instruction

Course-Integrated Instruction
Collaborate with our subject librarians to build research skills into your course curriculum. Librarians can provide instruction during class times, or via online learning objects such as screencasts or videos to enable anytime learning, whether your course is face-to-face or in person.

Media Assignments and Equipment Support
Integrate media resources into your assignments and teaching with assignment, production, and equipment support from the library.

Course Reserves and E-Reserves
Place course material on print reserve in the library or enable students to access digital versions through e-reserves.

Research

hsl.lib.umn.edu/biomed/help/researchers

Author's Addendum
Retain your copyrights as an author by using the CIC-approved addendum to amend article-publishing agreements.

Copyright Consultation
Consult with our copyright librarian or use our web tools and information to answer copyright and fair use questions.

Data Management Plan Consultation
Consult with a research librarian or take a workshop on how to create a Data Management Plan for your grant application (NSF or NIH).

Grant Funding Discovery
Discover new grant opportunities through our databases, hands-on workshops, and online tutorials.

Impact Factors
Use library tools to identify journal and research impact factors or conduct citation analyses of individuals and groups.

Outreach

hsl.lib.umn.edu/biomed/services/outreach

Community Partnerships
Join us as we work individually and with partners to bring quality health information to our state with the goal of informing care, enhancing lifelong learning, and growing patient empowerment.

Exhibits & Events
Visit the Wangensteen Historical Library for its annual exhibit, featuring the collection’s rare books, manuscripts and artifacts. Browse our permanent and rotating art at our Art @ Bio-Med exhibits.

Clinical Information
Use our e-journals, e-books, and visual resources (VisualDx, Nursing Collection in Video), clinical tools (DynaMed) and citation databases (AnimalScience, PubMed) to support clinical education and practice.

NIH Public Access Policy
Learn how the policy affects UMN researchers with NIH funding and get assistance with the compliance process.

Experts@Minnesota
Create a public profile with publications and affiliations and receive alerts about new funding opportunities based on profile and research interests

Publishing Support
Discover open-access journals in your discipline and share your work openly in publishing venues such as institutional repositories, like our University Digital Conservancy.

Systematic Literature Reviews
Learn best practices for conducting searches or have our expert searchers conduct searches for you.

Clinical Care

hsl.lib.umn.edu/biomed/help

Your Questions, Answered
Get in-person help, or connect by phone, chat or email (medref@umn.edu). Schedule individual consultations for in-depth research assistance.

Clinical Information
Use our e-journals, e-books, and visual resources (VisualDx, Nursing Collection in Video), clinical tools (DynaMed) and citation databases (AnimalScience, PubMed) to support clinical education and practice.
